

Plan Común

Felipe de Ferrari, Kim Courrèges (CHL)

Plan Común is a Chilean-French studio based in Santiago and founded in 2012 after 6 years of disciplinary debate, professional collaboration and editorial production with 0300TV and OnArchitecture. Plan Común refers to the logical and main condition of architecture from its very origins. Their projects establish ordering principles and spatial proposals with a clear reasoning, discussing common principles, following the conviction that radical forms are embedded and enhanced by collective experience, as a way to overcome individual interests. Plan Común proposes formal strategies to maximize and strengthen the character of public or shared space -understood as a key aspect of architecture, regardless of its scale or programme-. (Felipe De Ferrari, Diego Grass, Kim Courrèges, Thomas Batzenschlager)

Felipe De Ferrari (1983)
